

CREATIVE MARBLES CONSULTANCY

A college education is a valuable investment to be considered wisely.

Prime College Admissions & Academic Advising for Juniors

- For the family seeking comprehensive guidance during the junior year, CMC's advisors will help them navigate the complexities of the college application process. Over three strategically timed meetings, CMC's consultants can advise families about issues including: test-taking techniques specific to the SAT and ACT, how to manage rigorous academic classes, as well as begin the college selection process. In the third meeting, CMC's advisors will develop a plan to tackle the nuts-and-bolts of the college application process, and help clients address the complicated college application and essay writing processes.

Strategic College Admissions Advising in the Junior Year

During the latter half of the junior year, over two critically-timed meetings, CMC's consultants will help parents and students prepare for the complex college application process. Crafting individualized plans, juniors will have strategies for tackling the SATs and ACTs, as well as begin identifying colleges which match a juniors academic needs and carer goals. Additionally, CMC's advisors will assist clients in devising a strategy to address the college essay writing and application processes.

Basic College Admissions Advising for Juniors

A single, 90 minute planning session to outline college admissions related tasks for juniors, which can include strategizing for the SAT and ACT, scheduling classes for the senior year, beginning the college selection process and assessing the potential competitiveness of a junior's qualifications for admissions.

As a bonus, CMC's advisors will be available by phone, text, email, and video conference throughout the 2018-19 junior school year for any questions related to the college admissions process, at no extra cost to you.
